Dear Commissioner:

On December 5, 2002 the U.S. Patent Office issued a Notice of Non-Compliant Amendment. In this notice, the patent office requested a clean version of the amended claims and a marked up version of the amended claims.

In respect to the clean version of the amended claims, the applicant includes the claims 1-41 in a clean version. The applicant apologizes to the patent office for this inadvertent omission.

In respect to the marked up version of the amended claims, the applicant believes that the version was included in the amendment as filed on pages 1-8 thereof. The applicant

therefor respectively requests the examiner's reconsideration of this second requirement.

In that the above is believed to place the application into condition for allowance, favorable action is solicited.

Respectfully submitted,

William Lightbody
